GROUND / BEAN TO CUP

THE WORKHORSE JUST BECAME A RACEHORSE...

When you need great coffee at work, and lots of it, the Select Encore is just the ticket.

Available in single (ground coffee or leaf tea), b2C (coffee freshly ground from the bean) or combi b2c (bean to cup plus leaf tea) models, all versions give a speciality drinks menu that you would normally only see in a high street coffee shop.

Although the Encore has a compact footprint, making it ideal when space is at a premium, it still boasts a range of features that you would expect from its bigger siblings. If you're like us and want a true coffee-shop feel and to enjoy your drink from a paper cup, then the Encore is the machine for you. Do you need cold drinks and chilled water, either sparkling or still? – call on the Encore. Do you want to promote your business or your message to your people and visitors? – the Encore's unique EasiFit graphics panel allows a completely fresh look or message to be delivered in under 3 minutes, perfect for internal communication or just embarrassing everyone with highlights of the Christmas party!
