

# EVOLUTION

## GROUND / BEAN TO CUP

### THE NEXT EVOLUTION IN BEVERAGE VENDING...

When you need great coffee at work, and lots of it, the Select Evolution is the machine for you. Available in single (ground coffee or leaf tea), b2c (coffee freshly ground from the bean) or bean to cup plus leaf tea models, all versions give a speciality drinks menu that you would normally only see in a high street coffee shop. In fact the coffee is so good that Segafredo, Italy's No. 1 espresso, and Cafeology, one of the pioneers of high quality Fairtrade coffee, have put their name and brand to it.

Although the Evolution has a compact footprint, making it ideal when space is at a premium, it still boasts a range of features that you would expect from its bigger siblings. It has easy-to-read drink selection decals making it simple to select a drink just the way you like it, with variable strength, milk and sugar. If you want the true coffee-shop feel and to enjoy your drink from a paper cup, or need cold drinks and chilled water, either sparkling or still, then the Evolution is the machine for you.

Model	Power?	Water?	Size	Weight	Drinks per Day
Evolution	13A 3-pin plug	Plumbed	1830mm (h) x 660mm (w) x 740mm (d)	184kg	500 +
