

LINEA

BEAN TO CUP

FOR COFFEE WITHOUT COMPROMISE...

Many people ask us "what is the Linea?" – so we answer "a luxury-class high-performance table-top superautomatic bean-to-cup machine!". When we show them what it can do, how it does it, and tell them the price, they want one.

The Linea is, to put it modestly, the ultimate coffee machine. If you're serious – and we mean really serious – about great coffee at work then this is the Holy Grail. You already know the names off by heart - espresso, cappuccino, latte macchiato, café crème, caffè latte, americano, and chocolate, plus of course hot water for the lowly teabag-dunkers – but you don't know yet just how good they can taste when freshly ground from the finest coffee beans, cup by cup, and served with special milk-topping foamed to perfection.

The simple yet expressive centre display tells you exactly what's happening every step of the way. We haven't even got space to tell you about the adjustable dispense height, matching base cabinets and mobile coffee carts, coin and cashless modules, and bespoke branding opportunities that will really knock the socks of your staff and visitors, so why not just give us a call so we can wax lyrical some more?

Model	Power?	Water?	Size	Weight	Drinks per Day
Linea	13A 3-pin plug	Plumbed	810mm (h) x 350mm (w) x 550mm (d)	53kg.	350+
